

North Point Geographic Solutions

Summer GIS Technician

Job Description

Summary

North Point Geographic Solutions is a Geographic Information Systems consulting firm located in Duluth Minnesota. We focus on GIS data development, GIS programming for server and desktop applications, and cartography. Our mission is to provide geographic solutions that solve client's complex geographic problems while working directly with the client in a quick, professional manner and at a reasonable price.

Summary of essential job functions

The GIS Technician will be in charge of GIS data creation, aerial photo interpretation, GPS field data collection, and some GIS programming including desktop and server development. This GIS technician position will be a 4 month term with an option to extend employment determined by project availability.

Minimum requirements

Working toward a degree in Geography, GIS, Cartography, Computer Science, or related field of study. Experience with GIS data design and terminology. Experience working with ESRI's ArcGIS desktop, ESRI ArcPad, ESRI ArcGIS Server, and advanced computer skills. Must be able to work independently and meet project deadlines when applicable.

Desired requirements

Completion of GIS related degree or certificate, programming experience (Silverlight, Flex, ASP, SQL Server, PHP, Postgre, Visual Basic, Java, Objective C, C#).

How to Apply

Please send a cover letter and resume to jesse@northpointgis.com by April 28th at 4pm. Interviews will be held May 3rd – 7th.

Tentative starting date: May 10th

Pay: \$11/hr
